

House Rules

Please follow our simple house rules as they are part of your rental agreement and will make your stay as our guests, more enjoyable for everyone.

- Leave dirty or sandy shoes outside. Hose sand off feet before coming in. There is a hose on both sides of the front lanai (porch).
- No smoking or animals are allowed in the house. Do not leave cigarette butts in the yard. There is an ashtray under the kitchen sink.
- Be respectful of the neighbors (noise and privacy.) 10 PM is quiet time.
- Leave everything where you found it. This includes dishes and utensils, furniture and beach toys (weather from the house you are in or borrowed from another house.) If your party is staying in more than 1 house, be especially careful about this.
- Please, please, do not sit or lie on the upholstered furniture or bed with bathing suites on after being in the ocean. The salt goes into the fabric and ruins it quickly. Remind and watch the children for this and the feet thing.
- Read "Tips and Tricks of the House" found in our information book.

Upon check out:

- Leave no dirty dishes or food in rooms or sink.
- Take out the trash.
- Turn off lights, fans, and any appliances.
- Lock the doors.
- Put the key back in the lock box.

You will be charged extra for things that need to be put right if these rules are not followed (but we know you will!)

Main Rule
Have a great time!
